SANDEEP PANWAR

SAP ABAP Consultant – ABAP OO | CDS Views | OData Services | ABAP on HANA
Indore, India | +91-9617621839 | panwarsandeep1432@gmail.com | linkedin.com/in/sandeep-panwar

Professional Summary

SAP ABAP Consultant with 4 years of experience in RICEFW development, ABAP OO, CDS Views, OData services, and ABAP on HANA, supporting SD, MM, WM, and FI/CO processes for a global FMCG client. Experienced in P1/P2 production support, performance optimization, and requirement-to-delivery ownership, with practical exposure to ABAP development on an SAP HANA trial environment alongside production work on ECC/ABAP-on-HANA systems.

Technical Skills

ABAP Development: Core ABAP, ABAP Object-Oriented Programming, RICEFW (Reports, Interfaces, Conversions, Enhancements, Forms, Workflows), CDS Views (with Associations & Annotations), ABAP on HANA, AMDP, Performance Optimization, BAPI, ALV Reports, BAdI, User Exits
Integration & Services: OData Services, IDocs (Inbound/Outbound), Interface Monitoring & Error Handling
Forms & Output: SmartForms, SAPscript, Driver Programs, Output Type Configuration
Functional Exposure: SD (Sales & Distribution), MM (Materials Management), WM (Warehouse Management), FI/CO (Finance & Controlling)
Tools & Practices: ABAP Workbench, Transport Management System, Debugging & Root Cause Analysis, Version Control, ServiceNow, SAP CHARM

Professional Experience

Accenture Indore, Madhya Pradesh, India
Technical Development Analyst *Dec 2024 – Present*

- Lead support analyst for P1/P2 production incidents on a global FMCG client landscape, sustaining 98% SLA compliance through rapid diagnosis and resolution
- Perform advanced ABAP debugging, performance troubleshooting, and root cause analysis across SD, MM, WM, and FI/CO modules
- Develop CDS Views with associations and annotations for optimized data retrieval, improving query performance by 35% using ABAP on HANA capabilities
- Building and supporting OData services exposing CDS Views for Fiori and external system integration, with authorization-controlled real-time data access
- Lead requirement-gathering sessions with stakeholders, and architect scalable ABAP solutions
- Own end-to-end transport lifecycle – request creation, version control, and documentation per SAP best practices.

Accenture Indore, Madhya Pradesh, India
Application Development Associate *Sep 2022 – Nov 2024*

- Delivered 25+ RICEFW objects (custom reports, interfaces, conversions, enhancements, SmartForms) supporting SD, MM, WM, and FI/CO business processes
- Designed and implemented IDoc interfaces for inbound/outbound data exchange, including error handling and monitoring frameworks
- Built ABAP OO programs with modular, reusable components, improving code maintainability by 40% and reducing runtime through optimized database queries
- Developed SmartForms with driver programs for invoices, delivery notes, and purchase orders
- Integrated ABAP-based SOAP/REST web services for real-time data exchange with external systems, cutting manual intervention by 60%
- Partnered with functional teams on cross-module enhancements, performing impact analysis and delivering within project timelines

Certifications

SAP Certified ABAP Developer | Reinvention with Agentic AI | Creative Thinking: Techniques & Tools for Success | Time Management

Education

Bachelor of Technology in Computer Science Aug 2018 – Aug 2022
Lakshmi Narain College of Technology, Bhopal, Madhya Pradesh

Achievements

- Team Star of the Quarter (Mar–May 2024, Feb–Mar 2026) – recognized for outstanding performance and contribution to team success
- Received multiple client appreciation awards for rapid incident resolution and proactive problem-solving.
